Projects

Aroma Hub, E-Commerce Platform [↗](#)

- Developed an eCommerce platform for luxury perfumes using the MERN stack.
- Designed a responsive UI for seamless browsing across all devices.
- Implemented secure user authentication for personalized experiences.
- Built an intuitive product catalog with advanced search and filtering.
- Engineered a smooth shopping cart and checkout process.
- Integrated secure payment gateways for safe transactions.
- Created an admin dashboard for managing products, orders, and user data.

Spotify Clone, Music Player [↗](#)

- Developed a Spotify-like music streaming app using MongoDB, Express.js, React, and Node.js.
- Designed a responsive UI with Tailwind CSS.
- Implemented JWT for secure login and signup.
- Built a music player with full controls: play, pause, skip, volume, and progress tracking.
- Enabled quick search for songs, artists, and playlists.
- Integrated playlist creation and management.
- Added automatic liked songs to a dedicated playlist.
